 Nourhan Farid

## Summary

Front-End Developer with a strong eye for design and expertise in Tailwind CSS, Material UI, and Figma. Experienced in translating complex requirements into intuitive, mobile-first interfaces. Dedicated to creating visually appealing, accessible, and recruiter-friendly portfolios that balance aesthetics with functionality.

## Technical Skills

- **Core Technologies:** HTML5, CSS3, JavaScript (ES6+), and Typescript.
- **Frameworks & Libraries:** React, Next.js, React Query, and JQuery.
- **Styling & UI:** Tailwind CSS, Bootstrap, Material UI (MUI), Sass, Figma, and Adobe XD.
- **Responsive Design:** Mobile-first development, accessibility standards, cross-browser compatibility, and UI/UX principles awareness.
- **State Management & API Handling:** Context API, CRUD operations, REST APIs, and Redux.
- **Soft Skills:** Problem-solving, time management, effective communication, and teamwork.

## Professional Experience

### Front-End Trainee | Route Academy (March 2024 – September 2024)

- Developed a **Bookmark Application** with full CRUD functionality, enabling efficient data storage and retrieval.
- Built **Daniel's Portfolio**, applying modern UI/UX principles and responsive design to showcase projects effectively.
- Created a **React + Tailwind E-commerce Website**, implementing Context API for cart and product state management, ensuring smooth user interactions.

### Front-End Intern | CodeAlpha (September 2024 – October 2024)

- Designed and deployed an **Interactive Image Gallery** with dynamic filtering and smooth transitions, enhancing user engagement.
- Built a **Simple Calculator** with real-time functionality, demonstrating strong JavaScript problem-solving skills.
- Developed a **Personal Portfolio** showcasing proficiency in front-end frameworks, with a responsive design and recruiter-friendly layout.

## Front-End Intern | CognoRise InfoTech (November 2024 – December 2024)

- Created a **Quiz App** with interactive features and state management, improving user retention and engagement.
- Developed a **To-Do App** leveraging React state management to deliver seamless task tracking and updates.
- Implemented a **Static Website** optimized for performance, reducing load times and ensuring cross-browser compatibility.

## Personal Projects

### E-commerce Website (Shopifya) (March 2024 – September 2024)

- Built a fully responsive **React.js + Tailwind CSS** e-commerce platform with dynamic routing, navbar, and cart functionality.
- Integrated **REST APIs** for product listings, search, and filtering, enabling efficient handling of 100+ products.
- Implemented mobile-first design principles and accessibility standards to ensure inclusive user experiences.
- Optimized performance by reducing load times and improving state management for seamless navigation.

## Education & Certifications

- Bachelor's Degree in Physics** – Ain Shams University (2018 – 2022)  
Developed strong analytical and problem-solving skills, now applied to front-end engineering and debugging complex UI challenges.
- Frontend Development Diploma** – Route Academy (March 2024 – September 2024)  
Intensive program covering React, Next.js, TypeScript, and modern UI frameworks; completed multiple hands-on projects, including e-commerce and portfolio applications.
- Responsive Web Design Certification** – FreeCodeCamp  
Gained expertise in mobile-first design, accessibility standards, and cross-browser compatibility.
- React.js Certification** – Mahara-Tech  
Focused on building scalable React applications with state management and API integration.

## Languages

- English:** Professional Working Proficiency
- Arabic:** Native
